EDUCATION

College of Engineering Trivandrum — Thiruvananthapuram, Kerala
Master of Technology in Artificial Intelligence — *2026 – Expected 06/2028*

College of Engineering Chengannur — Kerala, India
Bachelor of Technology in Computer Science | *CGPA: 8.46/10* — *2019 – 2023*

EXPERIENCE

Orion Innovation — Chennai, Tamil Nadu
QA Engineer — *01/2024 – 07/2026*

- Coordinated delivery of 5 enterprise projects for KPMG across developers, business analysts, product stakeholders, and project managers, aligning requirements, quality gates, and release execution.
- Owned Azure DevOps compliance for 5 development teams, driving adherence to organizational standards and release governance through consistent cross-team follow-through.
- Automated 100+ test cases with Playwright, cutting manual testing effort by 40% and accelerating release validation cycles.
- Partnered directly with KPMG stakeholders to clarify requirements, present testing outcomes, communicate risks, and support product decisions.
- Identified process gaps and drove automation initiatives that improved QA efficiency, compliance tracking, and delivery execution.

Apps Team Technologies — Thiruvananthapuram, Kerala
Software Developer Intern — *07/2023 – 09/2023*

- Built web applications with ASP.NET Web API and Angular; implemented RESTful APIs and improved application functionality.

PROJECTS

InsightVista AI Agent — AI / Product

- Led requirements gathering, stakeholder discussions, and feature definition for an AI-powered audit onboarding solution that generates client overview insights from internal and external data sources.

ADO Compliance AI Agent (POC) — AI / Automation

- Developed a proof-of-concept AI agent that automates Azure DevOps compliance checks and task management, improving process efficiency and compliance tracking.

Farmzone — ASP.NET / SQL Server

- Developed an e-commerce platform for farmers using ASP.NET and SQL Server, enabling online sale and management of agricultural products.

SKILLS

Programming & Data: Python, SQL, Data Structures & Algorithms, Machine Learning, Deep Learning
Program Management: Agile Methodologies, Stakeholder Management, Requirements Gathering, Risk Communication, Release Governance, Cross-functional Collaboration

LEADERSHIP & AWARDS

- 2nd Place, Orion Innovation company-wide Hackathon (2024); Rising Star of the Month, Orion Innovation (2024).
- Qualified GATE 2026: Computer Science & IT (96.9 percentile) and Data Science & AI (91.2 percentile).
- Sports Captain, College Sports Team (2022): led and coordinated team participation and activities.

CERTIFICATIONS

- Foundations of Project Management (Google)
- Microsoft Certified: Azure AI Fundamentals
- AWS Certified Cloud Practitioner
