PROFESSIONAL SUMMARY

QA Engineer with 3+ years of experience in software testing, quality assurance, and Agile development environments. Strong interest in product management and technology-driven problem solving. Seeking to pursue a Master's degree to deepen technical expertise and transition toward product-focused leadership roles.

EXPERIENCE

QA Engineer

Jan 2024 - July 2026

Orion Innovation

Chennai, Tamil Nadu

- Contributed to the successful delivery of 5 enterprise projects for KPMG, ensuring product quality, stakeholder alignment, and timely release execution.
- Owned Azure DevOps (ADO) compliance across 5 development teams, driving adherence to organizational standards and release governance.
- Automated 100+ test cases using Playwright, reducing manual testing effort by 40% and accelerating release cycles.
- Collaborated with developers, business analysts, product stakeholders, and project managers to translate requirements into high-quality deliverables.
- Partnered directly with KPMG stakeholders to discuss requirements, present testing outcomes, gather feedback, and support informed product decisions.
- Identified process improvement opportunities and championed automation initiatives to enhance quality assurance efficiency and delivery excellence.

Software Developer intern

July 2023 - Sept 2023

Apps Team Technologies

Thiruvananthapuram, Kerala

- Developed web applications using ASP.NET Web API and Angular
- Implemented RESTful APIs and improved application functionality

EDUCATION

BTech in Computer Science, APJ Abdul Kalam Technological University

2019 - 2023

CGPA: 8.46/10

SKILLS

Technical Skills

C, C++, SQL, Automation and manual testing

Soft Skills

Communication, Leadership, Teamwork, Resilience

Tools

Azure Devops, Playwright

Methodologies

Agile, Scrum

Product & Leadership

Requirements Gathering, Stakeholder Management, Cross-functional Collaboration

PROJECTS

InsightVista AI Agent

Led requirement gathering, stakeholder discussions, and feature definition for an AI-powered audit onboarding solution that generates client overview insights from internal and external data sources.

ADO Compliance AI Agent (POC)

Developed a Proof of Concept AI agent to automate Azure DevOps compliance checks and task management, improving process efficiency and compliance tracking.

Farmzone

Developed an e-commerce platform for farmers using ASP.NET and SQL Server, enabling online sale and management of agricultural products. ([GitHub](#))

JSONFormatter

Built a JSON formatter application using Angular, PrimeNG, and Ace Editor for formatting and validating JSON data. ([Try it Here](#))

AWARDS AND ACHIEVEMENTS

- Qualified the Graduate Aptitude Test in Engineering (GATE) 2026 – CS and IT, scoring 96.9 percentile [Link](#)
- Qualified the Graduate Aptitude Test in Engineering (GATE) 2026 – DA, scoring 91.2 percentile [Link](#)
- Received the "Rising Star of the Month" award from Orion Innovation (September 2024) [Link](#)
